

Navigating the Frontiers: Unveiling the Vision and Mission of the Indian Journal of Medical Biochemistry

I am deeply honored and humbled to extend my heartfelt gratitude to the esteemed association for entrusting me with the responsibility of serving as the Editor-in-Chief for the *Indian Journal of Medical Biochemistry (IJMB)*. It is with great enthusiasm and dedication, I embark on this journey as we all are aware of the profound impact medical biochemistry has made on the advancement of healthcare and scientific understanding. As I step into this role, I am filled with a sense of responsibility and commitment to uphold the high standards set by my predecessors. The IJMB has a rich legacy, and I am excited about the opportunity to build upon its strong foundation. I would also like to take a moment to express my gratitude to all the valued members and diligent researchers who have been the driving force behind the journal's success.

In this inaugural editorial, I am eager to outline the vision and mission that will guide the future trajectory of the IJMB. The vision inspires and guides the journal's editorial team and contributors by providing a roadmap for the future direction and crafting a clear and compelling mission statement is crucial for outlining the overall purpose of the journal.

Our vision is "To be a dynamic and inclusive hub for high-quality research, fostering collaboration and contributing to the advancement of medical biochemistry on a global scale".

Our mission is: "To advance scientific knowledge in medical biochemistry, providing a platform for high-quality research that contributes significantly to the understanding and improvement of healthcare practices. To foster a diverse range of research areas, including molecular biology, clinical biochemistry, metabolic disorders, medical education and emerging interdisciplinary fields. To be recognized as an influential source of knowledge in medical biochemistry, facilitating collaboration and knowledge exchange on an international scale."

Together, let us explore the current trends and challenges in this dynamic field and chart a course that aligns with our collective vision for advancing scientific knowledge and contributing to the well-being of humanity. Join me on this exciting journey as we navigate the frontiers of medical biochemistry and continue to make meaningful impact on the ever-evolving landscape of scientific research.

Akila Prashant

Editor-in-Chief

Professor & Head, Department of Biochemistry

Convener, Department of Medical Genetics

JSS Medical College, JSS Academy of Higher Education & Research
